TECHNICAL SKILLS

- **Frontend:** React.js, TypeScript, Redux, Material UI, JavaScript (ES6+), HTML5/CSS3, React Hooks, React Router, Redux (Thunk/Persist)
- **Backend:** Ruby on Rails, Node.js, REST APIs, MVC Architecture
- **Databases:** MySQL, PostgreSQL, MongoDB
- **DevOps:** Docker, Kubernetes, CircleCI, Jenkins
- **Tools:** Jira, Git, Postman, AWS CloudWatch, Datadog
- **Practices:** Agile Scrum, TDD (Test-Driven Development), CI/CD, Security Compliance (OWASP)
- **Operating Systems:** Linux/Ubuntu, Windows

SUMMARY

Full Stack Developer (React/Ruby on Rails) with expertise in building high-traffic applications supporting 50K+ MAU. Cut load time from 4s to 1.3s, through code splitting and lazy loading. Spearheaded Ruby on Rails 4 to 7 migration improving maintainability by 35%. Security-focused developer who addressed 5 critical vulnerabilities (CVE), reducing risks by 85%

EXPERIENCE

Software Engineer

Rently

Apr 2023 – Present

- Led front-end development initiatives, conducting rigorous code reviews with engineering teams and overseeing seamless production deployments to ensure high-quality releases.
- Served as Scrum Master, coordinating deliverables across 5+ teams, product owners, and stakeholders.
- Integrated Transunion's credit reporting API to automate credit checks for rental applications, reducing processing time by 40% and allowing 500+ secure monthly screenings.
- Enhanced compliance with FCRA standards by 100%
- Implemented Google and Apple Login, adopted by 20% of the new users, streamlining the authentication process and improving user experience and security.
- Using third-party identity verification technology (Persona) to design and implement a fraud prevention system, resulting in a 30% reduction in frauds and scams.
- Led the back-end development effort to upgrade systems from Ruby on Rails 4 to 7.1, using a dual-booting approach to ensure a smooth transition, improving system performance, scalability, and maintainability.
- Resolved 5 critical vulnerabilities and 200+ risks via dependency upgrades, slashing security exposure by 85% (OWASP compliant)
- Automated JIRA/Confluence workflows

Associate Software Engineer

Rently

Jun 2022 – Mar 2023

- Developed responsive and reusable web components using React Hooks, React Router, Context API, and Material UI, ensuring high-quality modular design.
- Translated Figma/Zeplin mockups into functional applications, collaborating closely with UI/UX designers.
- Automated CI/CD pipelines using Docker and CircleCI, streamlining the deployment processes for front-end test cases, RSpecs in pipeline, and accelerated test and deployment cycles by 25%.
- Upgraded Node.js and optimized React performance, reducing page size from 4MB to 1.8MB through gzip, image optimization, and code splitting.
- Contributed to internal UI libraries, ensuring design consistency across products
- Spearheaded the integration of Beans AI, a proprietary wayfinding platform, driving client acquisition efforts and securing 5–10 new clients while generating incremental revenue
- Introduced lazy loading for images on the homepage, improving performance by 80% and enhancing user experience.

- Launched Wootric-powered NPS surveys, leveraging real-time feedback to elevate renter satisfaction and lift organizational NPS by 20%.

Junior Software developer

Rently

📅 Apr 2021 – May 2022

- Built responsive, reusable web components and integrated backend APIs using Axios.
- Accelerated feature delivery by 15% and decreased production bug rates by 10% while revamping legacy React class components to functional components
- Developed infinite scrolling with jQuery and redesigned the Primary Details Screen, increasing user engagement through successful A/B testing via Google Optimize.
- Achieved 100% code consistency and streamlined code formatting across the repository by integrating ESLint, Prettier, and Husky pre-commit hooks.
- Increased unit test coverage by 66% (18% to 84%) using React Testing Library and Jest, and authored blogs on testing best practices.
- Collaborated with back-end developers to integrate REST APIs, translating business requirements into functional, responsive front-end solutions.
- Debugged and resolved cross-browser compatibility issues (iOS/Android), improving site usability.

PROJECTS

Rently ILS *React, TypeScript, Redux, Material UI, Ruby on Rails*

An Internet Listing Service (ILS) that helps users find rental homes securely and efficiently through self-guided tours.

Rently Rental Application *jQuery, JavaScript, Ruby on Rails*

A rental application featuring credit score, income verification, and identity verification to help managers find credible renters for their homes.

Rently Manager Portal *React, JavaScript, Ruby on Rails, Material UI, Context*

A manager-facing application enabling property managers to view renter reports, manage properties, and control smart devices. The portal provides an intuitive interface for streamlined property management, helping managers make data-driven decisions and optimize operations.

COLLABORATION & COMMUNICATION

- **Effective Communication:** Authored technical blogs on **React Testing Library** and best practices, simplifying complex concepts for diverse audiences.
- **Stakeholder Collaboration:** Worked closely with **product owners**, presenting data-driven solutions and convincing them to adopt better technical and user-focused approaches.
- **Customer-Centric Problem Solving:** Partnered with **customer support teams** to identify and resolve user issues, improving overall product satisfaction.
- **Cross-Functional Teamwork:** Collaborated with **UI/UX designers** to brainstorm and implement solutions that balance user experience with engineering feasibility.
- **Adaptability:** Thrived in fast-paced, agile environments, adapting to changing requirements and delivering high-quality solutions under tight deadlines.
- **Leadership:** Served as **Scrum Master**, fostering collaboration between teams and ensuring timely delivery of projects.

EDUCATION

B.E. in Computer Science

Sri Shakthi Institute

📅 2018 - 2022

CGPA: 8.58/10
